12:00  ‘The Effects of Berry Fruits on Cognition and Motor Function in Aging’
   Barbara Shukitt-Hale, PHD, Research Psychologist, Neuroscience and Aging Laboratory, USDA-ARS, Human Nutrition Center on Aging, Tufts University
12:00  Panel Discussion
1:40  Closing Discussion

---

History of the Lillian Fountain Smith Conference

This conference – including the affordable registration costs – are supported annually by the Lillian Fountain Smith Trust, established by Mr. and Mrs. J. Smith and their children to honor Mrs. Smith, a 1918 graduate in home economics at Colorado State University (then Colorado A&M). Recognizing the importance of nutrition in her own life and the lives of her family members, Mrs. Smith chose to assist the Department of Food Science and Human Nutrition at Colorado State University in improving and extending its nutrition outreach activities. This year we celebrate the 36th year of the conference. People have attended this conference from across the U.S. during the past three decades. It is an honor to continue this legacy. Net conference proceeds are used toward the Lillian Fountain Smith Scholarship.
